Product Summary

Cannabidiol (CBD) is a compound in cannabis that has medical effects without delivering the psychoactive effects that THC does, and actually counters some of the effects of THC. The reduced psychoactivity of CBD-rich cannabis may make it an appealing treatment option for patients seeking anti-inflammatory, anti-pain,

anti-anxiety and/or anti-spasm effects without disconcerting euphoria or lethargy. Scientific and clinical studies indicate that CBD could be effective in easing symptoms of a wide range of difficult-to-control conditions, including: rheumatoid arthritis, diabetes, alcoholism, PTSD, epilepsy, antibiotic-resistant infections and neurological disorders. CBD has demonstrated neuroprotective effects, and its anti-cancer potential is currently being explored at several academic research centers in the U.S. and other countries

Product Description

The CBD Store product line is Lab-tested at a Health Canada approved testing facility. 100% Canadian hemp derived full spectrum CBD Oil.
